

BUILDING A WORLD OF JUSTICE

JOIN THE MOVEMENT!

Development and Peace — Caritas Canada works in solidarity to promote justice, peace and dignity, reaching millions of people in over 30 countries around the world.

Guided by Catholic Social Teaching, we support women and social movements as key agents of lasting change. We seek to eliminate the root causes of poverty, oppression and inequality by working with partners in the Global South and by mobilizing Canadians.

"I am committed to Development and Peace — Caritas Canada to concretely promote international solidarity and human dignity for all. Through advocacy, awareness-raising and fundraising, I am responding to an inner calling: to walk with the most vulnerable toward a reconciled, more just and deeply human world."

INTERNATIONAL SOLIDARITY

Needed now more than ever!

While the most vulnerable populations in the Global South struggle to cope with increasing conflict, climate change and resource theft, funding for international aid and development is declining. Wealthy countries are reducing official development assistance to the Global South even as they extract more and more value from its natural and human resources. This trend raises concerns about the sustainability of health and education systems, exacerbates poverty and deepens inequalities in poorer countries. We are already seeing global repercussions.

For Canadians to enjoy true safety and prosperity, Canada must work to create a more just world within and beyond its borders. **We have a role to play in ensuring that everyone can live in peace and dignity.**

PROGRAMS THAT MAKE A DIFFERENCE

Since 1967, Development and Peace — Caritas Canada has been prioritizing a long-term partnership approach, in which local communities take charge of their own development. Here are a few examples:

MIDDLE EAST - *Peace and reconciliation*

Training young activists in conflict-affected regions and building their capacities to develop fairer and more peaceful communities

DEMOCRATIC REPUBLIC OF THE CONGO - *Justice for women*

Raising public awareness through civic and electoral education to foster more respectful attitudes toward women and to promote inclusive governance

BANGLADESH - *Humanitarian aid*

Supporting the construction of weather-resistant shelters, the rehabilitation of water, hygiene and sanitation infrastructure, and education and protection services

BRAZIL - *Ecological justice*

Enabling a community to be relocated to a clean and safe place, far from the industrial pollution that was poisoning their lives

HAITI - *Citizen participation*

Defending the human and environmental rights of communities whose land and water sources are threatened by the mining industry
